## SKILLS

### Engines

Unity  
Unreal  
Twine

### Languages

Blueprints  
C#  
JavaScript

### Software

Git  
Perforce  
Jira

## PROJECTS & JOBS

### More Than Survival | **Writer & Programmer**

- A short twine story about how we live with anxiety and depression, told through the folktale *The Three Little Pigs*.
- Designed story layout and implemented branching systems.
- Sought out and collaborated with an artist for the game's art and publishing materials.

### Elevator To Hell | **Writer**

- A cinematic script about Zagreus (*Hades*), GLaDOS (*Portal*), and Senua (*Hellblade: Senua's Sacrifice*) being stuck in a room together.
- Researched characters' voices and history for authentic storytelling.
- Developed dialogue that played on the characters' values and their understanding of the world.

### What It Craves | **Writer**

- A comedy sketch mapped onto the bizarre and scary world of being first time parents.
- Workshopped with fellow UCB students and teachers to tighten script over several edits.
- Studied horror tropes and the difficulties of raising a newborn for a comedic, yet relatable experience.

### ARUP | **2019 - PRESENT**

- Programmed web applications for a medical company, including starting and inheriting projects.
- Advised and mentored an intern.

### GApp Lab | **2018 - 2019**

- Games and therapeutic apps laboratory.
- Implemented English and Spanish dialogue for two narrative intensive, mobile, VR projects.
